## PLANS MADE TO DISPATCH 5,000 SOLDIERS TO CUBA

General Staff Orders Four Big Army Transports at Newport News to Be Made Ready to Carry Troops.

OBJECT TO CRUSH REBELLION IN EASTERN END OF THE ISLAND

Military Lines Would Be Drawn and General Warning Given That Any One Found Outside Them Three Days After Notice Would Be Summarily Shot Dead.

The general staff of the army today issued preparatory orders for the dispatch of a military expedition of 5,000 troops to Cuba.

The four big army transports now at Newport News were ordered to be put in commission, provisioned and supplied. Orders also were sent to the army posts from which the troops will be drawn to have them in readiness for the movement.

The troops will be taken from Plattsburg barracks, Forts Porter and Niagara and Governors Island, N. Y., and Forts McPherson

and Oglethorpe, in Georgia. If an expeditionary force be sent to Cuba the object will be purely military, it is officially declared at the War Department. There is still no thought of political interference in the affairs of Cuba. If troops are sent to the island, it is stated, they will be dispatched to the eastern end and will not approach the capital. Their object would be to speedily restore order in Oriente province.

Lines Would Be Established. To that end, it is stated, military lines would be drawn and general announcement made that any person found outside of those lines after three days' notice, without express permission of the military

commanders, would be summarily shot. It is fully expected by the War Department officials that the mere declaration of this purpose would be sufficient to bring the insurrectos within the lines on a run. If not, then the plan is that the first expeditionary force, composed principally of infantry, would be reinforced at once by cavalry, to sweep the country and beat the bush, leaving the more solid infantry organizations to guard the towns and plantations. There are only a few plantations in eastern

The four transports assigned to convey the expeditionary force. if it is dispatched, are the Kilpatrick, McClellan, Sumner and Meade anchored off Newport News for many months with skeleton crews aboard.
